

Python3

```
14     binario = bin(n)[2:]
15     contador_actual = 0
16     contador_maximo = 0
17
18     for bit in binario:
19         if bit == '1':
20             contador_actual += 1
21             contador_maximo = max(contador_maximo, contador_actual)
22         else:
23             contador_actual = 0
24
25     print(contador_maximo)
26
```
